

How to order

1. Create your account (new users) or use your Fly Facility login and password (registered users) to open the on-line order form
2. Fill in the order form following the provided instructions.
3. Print the generated order and send it with your samples to the following address:

FLY FACILITY

CNRS UMR6247, INSERM

U931, Université de Clermont-Fd

28, Place Henri Dunant

63001 Clermont-Fd Cedex

FRANCE

Using the same login and password you can access information on your order history.

We recommend sending your DNA samples (clearly labelled) precipitated under ethanol.

We will use barcode système to identify and follow your samples.

Current turn-around time

Transgenesis (P-element or site specific) :

-

Basic service: 10 days

-

Extended service: 40 day

We ship larvae or transgenic flies by Fedex/TNT/UPS using indicated by the customer account number.

In Europe, if requested by customer, we can send transgenics by regular mail.

You will receive a bill few days after larvae or transgenic line delivery.
